

Where do I find it?

Files that I have created.

- File Manager
- /home directory
- Start applications
- Create directories
- Move files
- Delete files

Applications that I run.

- File Manager
- /bin & /sbin directories
- /usr/bin/

File System

/

bin/ bash

boot/ grub/

dev/ ram0 sda2 sda3

etc/ gimp/ firefox/

home/usersyd/LinuxMeet/ userro/

lib/udev/hpljP1505

root/ Ø

media/ usersyd/DataStick userro/

usr/ bin/ share/nautilus/ sounds/

What do I have?

Mint Applications:

Typing

Spreadsheet

Power Point

Drawing Libre Office

Photos Image Viewer
Gimp

Internet Firefox

E-mail Thunderbird

Files

Nemo

Media

Videos

Scan

Simple Scan

CD & DVD

Brasero

Adobe (pdf)

Evince

Programs

Synaptic

Counting

Calculator

How a computer counts.

Decimal

H | T | U

1 7 5 = 175

Binary

128|64|32|16|8|4|2|1

1 0 1 0 1 1 1 1

= 175

11111100000 = 2016

1 Kilobyte = 1024 bytes

The Commodore 64 had 65536 bytes of RAM.

byte (B)

kilobyte (KB) (KiB)

megabyte (MB)(MiB)

gigabyte (GB) (GiB)

terabyte (TB)

petabyte (PB)

exabyte (EB)

zettabyte (ZB)

yottabyte (YB)
